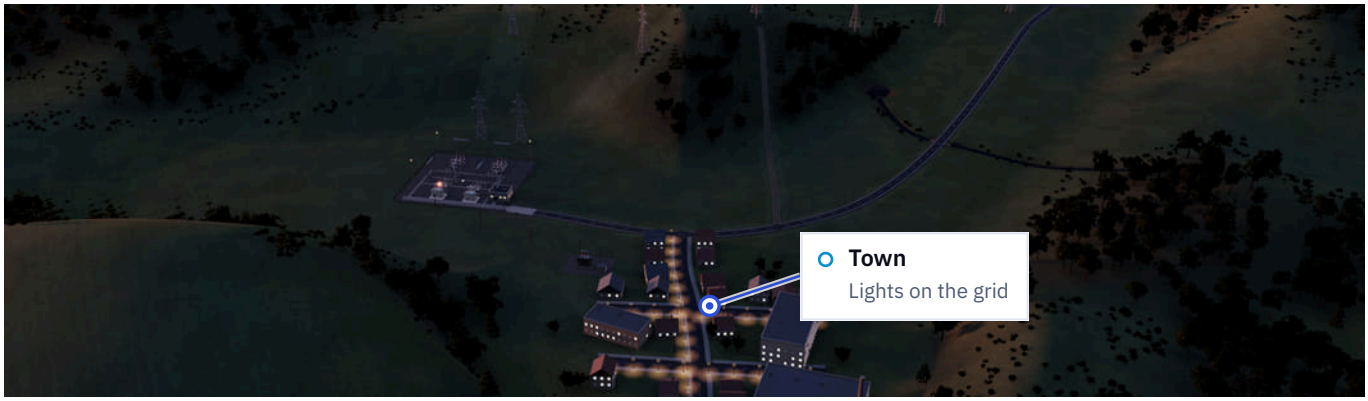
WHERE GENESYS WORKS

Valleys, forests and hills, and the crews who keep the grid running.

Every line and substation depends on the crews who keep it running, often far from the road. GENESYS is GENE's software for power utilities, built on more than a decade of GENE's work in power networks.



WHAT THEY BUILD TOGETHER

GENESYS
AMS & LES

The register, health and remaining life of every asset, and the maintenance plan that follows from them.

In development

GENESYS
SCADA

Process views, alarms and remote control for substations and plants.

In development

Robotics pilot

Robots and drones take the routine rounds; findings go straight to the crew.

Prototype in pilot

haytham Retail

Counts, dwell times and alerts from the cameras a site already has.

Built by JUMPHASH
